

Bachelor AI - MLOps

05C LINKS AND ENTRY POINTS

Tobias Mérinat

`tobias.merinat@hslu.ch`

DEPARTMENT OF INFORMATION TECHNOLOGY
Lucerne University of Applied Sciences and Arts
6343 Rotkreuz, Switzerland

September 17/24 and October 15 2026

- The *slides* (**PDF files**) can be found on Ilias in the folder SW01 under https://elearning.hslu.ch/ilias/ilias.php?baseClass=ilrepositorygui&cmdNode=yb:n6&cmdClass=ilobjcoursegui&ref_id=7206301
 - The first folder holds the materials for the first three weeks
 - The second and third folder are therefore empty
- The *exercises* (**HTML files**) can be found on github under https://github.com/tobycheese/hslu_bachelor_ai_hs_2026
 - Clone the repository only for reference or if you want to work locally
 - Please do not fork, as I want to set the repository private again after the lecture
 - When working with codespaces, you browse to the repository and launch codespaces from there (we will do this together in a minute)
 - **Download the html.zip file and display the exercises locally.** If you open them on codespaces, the css breaks.

- Main page, overview of running codespaces:

<https://github.com/codespaces>

- Available Quota: <https://github.com/settings/billing/summary>

- You launch the exercise codespace directly from the Github repository URL:

https://github.com/tobycheese/hslu_bachelor_ai_hs_2026
